PROFESSIONAL SUMMARY

A highly motivated and experienced Frontend Developer in the Software Development field, specializing in developing complex web applications and solutions. Proven track record of success in developing, and delivering innovative software solutions.

PROFESSIONAL EXPERIENCE

Persistent Systems   JUNE 2022 – June 2023
Software Engineer

- Developed 20+ user interfaces using **react** framework enhancing overall user experience.
- Developed 10+ **API driven** interfaces ensuring optimal performance and maintainability.
- Participated in an **Agile** development environment and collaborated closely with cross functional team of 8 members to conceptualize, design and implement innovative user-facing features, ensuring **seamless integration** with the existing system and enhancing overall user experience.
- Verified the technical feasibility of 3+ UI/UX designs, guaranteeing seamless implementation and alignment with project requirement.
- Leveraged version control (**GIT**) to manage and track changes in 3+ software projects.
- Implemented state management solutions using **Redux** to enhance application stability and data flow.
- Integrated frontend with backend using **axios**.

Persistent Systems   Jan 2022 – June 2022
Student Intern

- Design and developed 10+ **responsive web** pages to optimize user interface and enhance user experience.
- Leveraged react framework to craft 10+ visually appealing, 15+ API driven and mobile friendly user interface.
- Collaborated with team of 10 developers, utilizing GIT for version control and ensuring efficient code collaboration.
- Participated in project planning and execution, actively contributing to web development and enhancement of web applications.

EDUCATION

KLS Gogte Institute of Technology, Belagavi KA   2018 - 2022
Course: Electronics and communication Engineering, 7.89 GPA

SKILLS & OTHER

- HTML5
- CSS3
- GIT
- Javascript, ES6
- React
- Trouble shooting and debugging
- Problem solving
- Node js
- Redux
- MogoDB
- Familiar in backend development using node and express

CERTIFIATIONS

- Responsive web design from freeCodeCamp.org
- AZ-900 fundamentals
- Virtual experience with program with Cognizant on Agile Methodology
- React basics and Advance react by Meta
- Business English Certificate Cambridge ESOL
